About our prints

Images are printed on Epson Premium Luster paper using an Epson 3800 printer, attached with archival tape to an acid-free backer board, covered with double, acid-free, white mats, and enclosed in a clear acetate protective sleeve. Each print has an expected display life of 50-70 years, especially when displayed under glass.

The sizes shown below are outside dimensions of the top mat. The image sizes for each mat size are as follows:
